Dear Terry and team,

It was with some trepidation that we embarked on our building programme. We usually did all our own work so we were anxious to find someone who cared as much as we did about it being right.

After our first meeting when you came to see us and brought your portfolio, of which you were justly proud, we felt that we had found that person. You were obviously someone who wanted the job to be well done and you cared about us getting what we wanted. You also had a wealth of experience on which you could draw.

Some months down the road we have got exactly what we wanted and we are very satisfied. We also had a very pleasant and stress free experience into the bargain.

Whenever anyone mentions heading any building work doing we always recommend you. Neighbours have noticed and commented on the careful and tidy way in which you have done the work.

Thank you to all your team (including all the tradesmen that you recommended to us) for being so easy to get on with and for doing such an ~~excellent~~ excellent job for us.

Yours sincerely

Geoff and Kate Gittins
